

# ABL ANGLE BLADES

## CLEAR LAND EFFICIENTLY WITH YOUR DOZER!

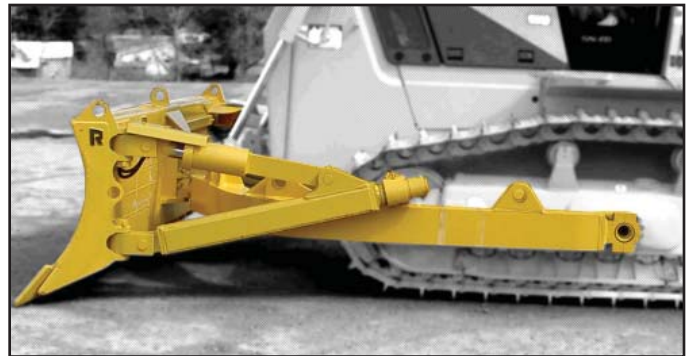

Rockland Angle Blades are designed for rugged applications where dozing material to the side of the tractor is desired. The angle blade comes complete with c-frame and brace group ready to mount on your dozer.

Rockland Angle Blades are mechanically angled side-to-side and feature a tough, durable design made to handle your heavy-duty land clearing applications. The angle blade is available with hydraulic or manual tilt for standard and LGP tractors. Standard and heavy-duty versions are also available.

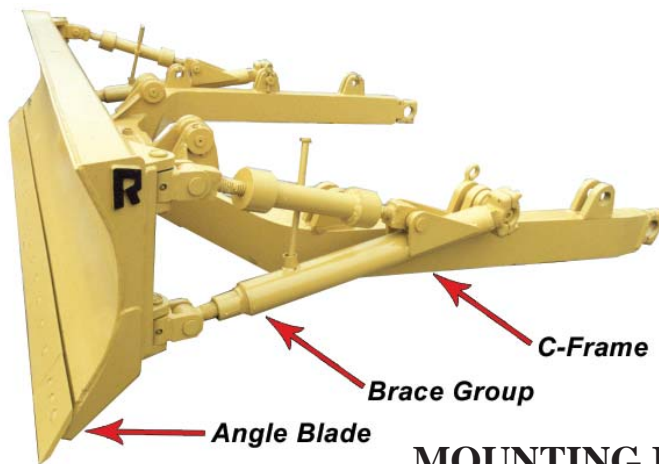

To find out more about Rockland Angle Blades, c-frames, and brace groups, or to discuss your specific application, please call us at 800-458-3773.

*Heavy-duty angle blade, c-frame, and brace group.*

*Perfect for rugged road building and pipeline applications.*

### MOUNTING INFORMATION

The Angle Blade mounts on a standard C-frame using standard braces and factory pins.

### WARRANTY

Rockland Angle Blades are guaranteed against failure due to defective design, workmanship or materials for a period of one year or 2,000 hours.
