

MDH LIFT ARM EXTENSIONS™

GET MORE DUMP HEIGHT AND REACH

SIMPLE SOLUTION FOR MORE DUMP HEIGHT

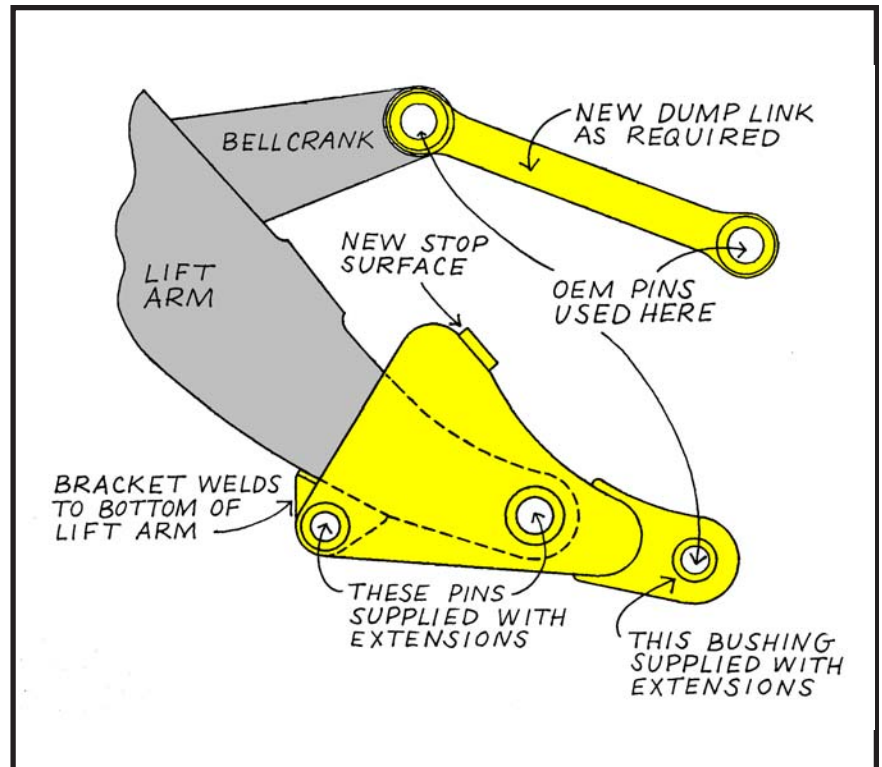

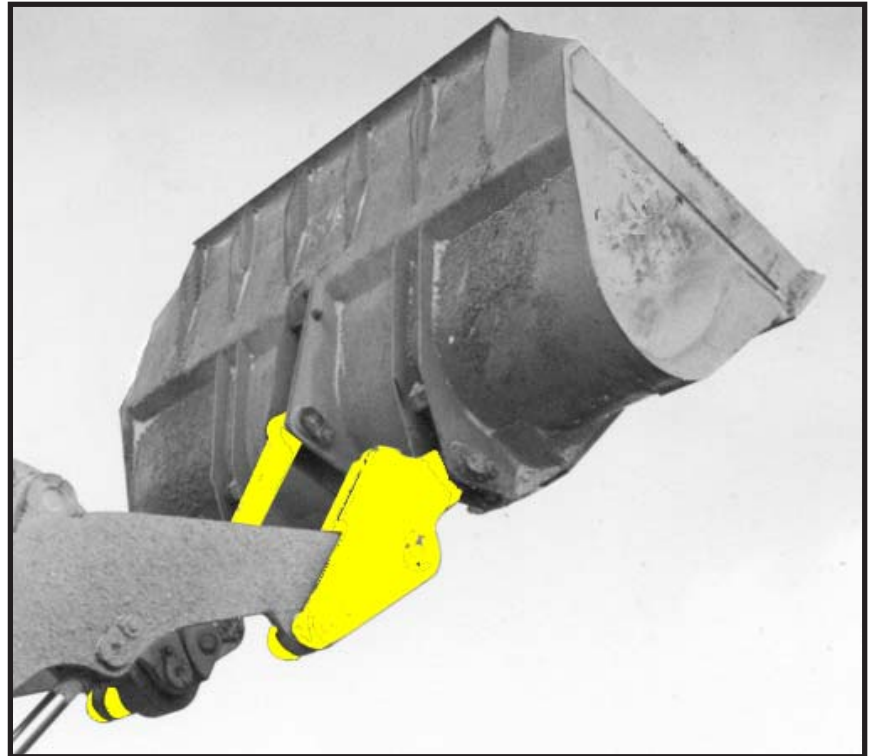

Equip your loader with MDH Lift Arm Extensions and get the dump height you need without buying a bigger machine. Dump height can usually be increased from 12" to 30" depending upon machine size and application. MDH extensions are easily installed, and when used with a Rockland bucket, they deliver OEM rollback and dump angles for efficient material handling.

EASY TO INSTALL

MDH Extensions are easy to install. It usually requires less than a day. A bracket is welded to the bottom of each boom arm. The rugged, high-strength extensions slip over each lift arm and are secured with pins that are supplied with the extensions. The extensions can be easily removed at trade-in time for maximum trade-in value.

DESIGNED TO PERFORM

Every set of MDH Lift Arm Extensions is specifically designed to be used with the right size Rockland bucket to deliver the dump height you need. Satisfaction guaranteed!

USE LIFT ARM EXTENSIONS WITH THESE ROCKLAND BUCKETS

GPH MATERIAL HANDLING

- Flat bottom design for easy penetration of any stockpile.
- Full width, bracket beam design to resist torsion.
- Full length, replaceable wear strips.
- Straight sidecutters.
- Available with bolt-on reversible cutting edges.
- Ideal for stockpile work.

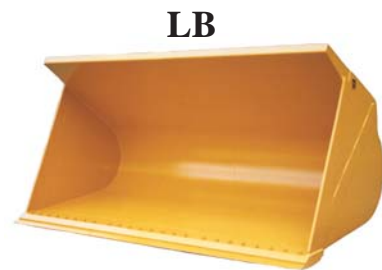

WC WOODCHIP

- Woodchip handling requires a special bucket.
- Large enough to guarantee machine productivity.
- Rugged enough to stand up under round-the-clock operation.
- Built entirely of high strength, weight-saving alloy steel and reinforced at all critical stress areas.
- Certified tough cutting edges.

LB LIGHT MATERIAL

- Specifically designed for the loader on which they will be used.
- Widths and capacities are carefully matched so that machine performance is not compromised.
- Slope-bottom design to reduce bottom and corner wear.
- Replaceable wearplates.
- Certified tough cutting edges.
