

MULTI-PURPOSE BUCKETS

TWO MODELS FOR EVERY APPLICATION

VERSATILE

Need to be able to grip, grab, pull and lift? Need to grade, doze, or dig and load? If so, your machine deserves a Rockland Multi-Purpose Bucket. These buckets are designed to perform and built to last. They deliver true versatility without changing attachments.

The MP is ideal for utility work and general contractors.

TWO MODELS FOR EVERY APPLICATION

It excavates, loads, and clears land—virtually whatever the job may require.

The MP-L was designed specifically for trash transfer stations. Its ability to crush, pick, sort, and doze really increases trash handling efficiency.

BUILT TO LAST

Both models are built to last in the Rockland tradition. Heavy-duty clams, oversize pivots, and hard alloy wear strips guarantee years of dependable service. Hydraulics are the heart of any multi-purpose bucket and Rockland hydraulics are first-class. High pressure cylinders with special heat-treated, hard chrome-plated rods deliver dependability—year after year. All moldboards are reinforced with box sections and equipped with bolt-on cutting edges and replaceable end bits. Clams can be equipped with bolt-on cutting edges or the teeth of your choice.

This all adds up to versatility, productivity, and dependability. If you are thinking Multi-Purpose buckets, specify Rockland. You will be glad you did!

MP MULTI-PURPOSE

Rockland MP Buckets are ideal for utility work and general contractors.

MP-L TRASH HANDLING

Transfer station operators appreciate the versatility of the Rockland MP-L because of the way it really speeds trash handling.

MP-L TRASH HANDLING

MP-L Trash Handling Bucket capacity should be determined by the weight of the material usually handled and the operating capacity of the loader. Often a bucket larger than the standard multi-purpose bucket can be used to maximize productivity.
