

RF ROCK FORKS

**THE IDEAL LOW-COST SOLUTION
TO HANDLING LARGE ROCKS WITH
A WHEEL LOADER**

Problem: You need a wheel loader attachment that can handle rocks.

Solution: Rockland RF Rock Forks.

Pallet forks or log forks simply cannot stand up to quarry work. Don't even try. If you are going to handle rocks with forks, you need a fork designed to handle rocks!

Rugged, dependable, and built to last, Rockland RF Rock Forks have severe service frames. They are equipped with fixed, extra wide, extra thick tines to stand up to quarry work.
