

SO HIGH DUMP BUCKETS

TURN YOUR LOG GRAPPLE INTO A LOADER

13' 6" DUMP HEIGHT

The SO High Dump Bucket is the answer to your dump height problems when loading sawdust or woodchips. The SO High Dump Bucket enables you to dump at a height of 13'6" -- greatly increasing the efficiency of your loader. This unique bucket is carried by a log grapple and dumps easily from the fork tips. You will eliminate the need for loading ramps or boom arm extensions by quickly transforming your log grapple into an effective loading machine.

The SO High Dump Bucket slips on a log grapple and is ready to work in less than one minute. The clamp is connected to the bucket by a dump link and dumping is achieved by simply opening the clamp. SO High Dump Buckets are built entirely of high-strength, alloy steels to keep weight and maintenance to a minimum. Each bucket is built to provide years of dependable and productive service.

U.S. Patent No. 5,779,430

SO HIGH DUMP BUCKETS

SPECIFICATIONS

[Click here to identify your machine category.](#)

Machine Category	20		30		40		50	
Capacity YD ³	3.5	2.68	4	3.06	5	3.82	5.5	4.21
Width	96"	2438	106"	2702	116"	2946	120"	3048
Weight lbs.	1800	816	2100	953	2720	1234	3055	1386

Note: The ability of the clamp to dump the bucket depends upon two factors -- the size of the load and the size of the cylinder or cylinders that operate the clamp. Some grapples may require that the size of the clamp cylinder be increased.

WARRANTY

Rockland SO High Dump Buckets are guaranteed against failure due to defective design, workmanship or materials for a period of one year or 2,000 hours.
