

10 Reasons Rockland Thumbs are the Best

1. Narrow Design - No width or interference problems. Positive 3- point pick up.

2. Easy Transport - Rockland Thumbs will never hit your excavator's stick. You don't have to remove a Rockland thumb in order to transport your machine.

3. Lightweight - Better machine performance. Why sacrifice capacity hauling around a big heavy thumb?

4. Automatic Thumb Locks - No down drift with Rockland hydraulic thumbs! Thumb jiggle and accelerated pin wear are eliminated!

5. Cylinder Rod Guards - These rugged guards help protect expensive cylinder rods- another exclusive Rockland feature.

6. Heat-treated replaceable bushings and pins - All pivot points are sealed and lubricated . More evidence of Rockland excellence!

7. Tough - Heat treated, high strength, weight-saving alloy steel plate for maximum strength and minimum weight.

8. Wide Thumb Option - If your application demands a wide thumb, specify a Rockland wide thumb and get all the other exclusive Rockland features.

9. Easy Installation - Rockland thumbs quickly mount to the underside of the excavator stick. No special pivot pins are required. Pin breakage is eliminated.

10. Quick Shipment - Order from your favorite dealer today. If they don't have one in stock, we do!
