

MT TILT BUCKETS™

GET MORE FROM YOUR MINI

A Small Bucket That Makes A Big Difference!

A Rockland MT Tilt Bucket will dramatically improve the productivity of your mini-excavator. Now you can eliminate the large, expensive Gradall* and a flag man. The MT bucket gives you the ability to grade, load and unload trucks, excavate, and efficiently remove and load old driveways and sidewalks.

A pleased contractor reported that his mini-excavator equipped with a Rockland MT Tilt Bucket easily preps 400-500 feet of sidewalk and curb per day. He also reported that another machine with a MT bucket replaced a crew of four men. To see the MT Tilt Bucket in action visit www.rocklandmfg.com or call 800-458-3773 for a free CD.

All Rockland Mini-Excavator Tilt Buckets feature a tough single tilt cylinder that delivers 45 degrees of tilt in each direction. The cylinder and hydraulic lines are protected by a guard that is easily removed in seconds without tools. All Rockland Mini-Excavator Tilt Buckets are covered by a 1 year 2,000 hour Rockland warranty. Extended warranties are also available.

Specifications

(mm/kg)
