

BOLT-ON STRUT BRACKET

ONE GRAPPLE, MULTIPLE MACHINES

Now it is easy to use an excavator grapple with more than one machine!

- Minimum amount of welding required.
- When transferring bracket to other machines leave stops in place for later use.
- Each Bolt-On Strut Bracket comes with nine plate stops for use with three different machines.
- Mounting plates are designed to fit most excavators in each weight class. Special bolt-on brackets and bolts are available for machines that do not fit standard brackets.

NOTE:

- If your machine has stick piping, we will need measurements and photographs to be sure there is clearance for the bolt-on strut bracket.
- Bolt-on strut brackets require a longer strut than the standard grapple and is included with bolt-on strut

WARRANTY

Rockland Bolt-On Strut Brackets are guaranteed against failure due to defective design, workmanship or materials for a period of one year or 2,000 hours.
