

SDB SIDE DUMP BUCKET

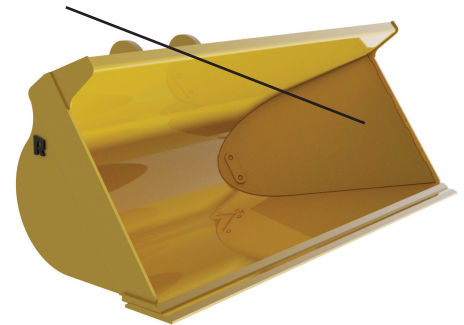

REDUCE COST AND INCREASE PRODUCTIVITY

Two buckets in one!

The Rockland SDB Side Dump Bucket features a patent-pending wear plate, that when removed, transforms the SDB into a standard General Purpose bucket. This wear plate is easily removed with standard tools – no cutting or welding is required. The wear plate also serves as a replaceable wear part. Side dump buckets wear on the sloped side of the bucket first. After many hours of use, the wear plate is easily exchanged for another. This eliminates expensive re-builds, down time, and reduces the total cost of operating a side dump bucket.

Rockland SDB Side Dump Buckets feature cushioned cylinders in both extension and retraction for years of dependable service and smooth, quiet operation. Rockland SDB Side Dump buckets are also entirely constructed of weight saving high strength alloy steel and reinforced with abrasion resistant steel where wear occurs ensuring a long life and many years of productive service.

Removable Dump Plate
(patent pending)

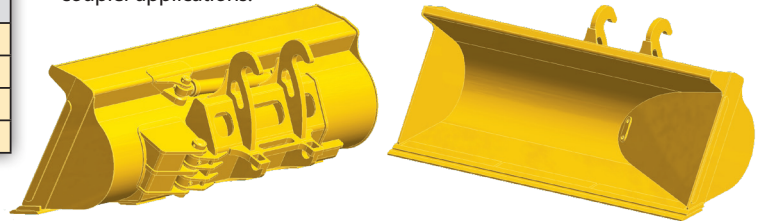

Specifications

CATEGORY	RATED SD CAPACITY (YDS)	RATED GP CAPACITY (YDS) LESS DUMP PLATE	WEIGHT (LB)	WIDTH (IN)
20	1.25	1.41	2,390	100
20	1.50	1.69	2,875	100
20	1.75	1.97	3,300	100
20	2.00	2.25	3,730	100

60	4.25	4.79	5,570	130
60	4.50	5.07	5,825	130

Exclusive Features and Benefits

- One bucket for two jobs! The patent pending dump plate can be quickly removed when dumping to the side isn't needed. Capacity is increased and the handling benefits of a general purpose bucket are available at a moment's notice.
- Increased wear life and easy repair – the dump plate also functions as a replaceable wear part. As the bucket is used, simply replace the wear plate. Expensive re-builds are eliminated and the life of the bucket is increased much more than with a "typical" side dump bucket. This increases bucket life, reduces downtime, and reduces cost.
- Safe, Smooth, and Quiet Operation – Rockland's SDB bucket features cushioned cylinders for years of dependable service and smooth operation.
- All side dump buckets dump to the left; right dump is available upon request
- Available for all makes of wheel loaders and for use in pin on and coupler applications.
